RE: Temporary donation of trust water rights for control number CS4-59009(B)J@1

Dear Patricia,

Per your phone conversation, we would like to extent the duration of our donation to 5 years, with the stipulation that we could retain the right to cancel the donation at any time.

There also needs to be a change in the parcel number which was reported incorrectly when the application was submitted. Parcel number 22-20-24-340-050 should be 22-20-24-430155.

Please call me at 509-665-7675 if additional information is needed.

Sincerely,

Dear Mr. and Ms. Hoyt:

I received your letter of September 29, 2011 to Gary Steele requesting an extension of your temporary donation CS4-59009(B)J@1 to the Trust Water Program. Gary is no longer with the Department of Ecology and I have taken his place as the Office of Columbia River (OCR) Trust Water Coordinator. I am writing to you to make sure I understand the intent of your request and to provide you with an option that would alleviate the need for repeated extension requests.

I also have one concern about the place of use you identified on the Trust Water application. In your letter you asked that the "same terms" of your previous donation be extended. Can I assume that you refer to both the acreage to be left fallow and the 2 year duration of the donation? This would provide the donated water for in-stream flows through the 2013 irrigation season. An option you might consider is requesting a longer period of donation with the stipulation that you retain the right to cancel the donation at anytime during the specified period. This would allow you to put the water into trust for several years without the need to send an extension letter and the water would be considered put to beneficial use. In the future you would only need to contact the OCR Trust Program if you would like to request another extension or you choose to irrigate with the water before the donation period expires. No action on your part is required if at the end of the specified donation period you are no longer interested in retaining the water in trust.

I have one other question concerning the place of use you identified on the trust donation application form. The fields that have been fallowed appear to be in two parcels you own, however, nearly half of the land that appears fallow is in the eastern portion of parcel number 22-20-24-430155 not parcel number 22-20-24-340-050.

I would appreciate a quick letter to clarify your Sept. 29th letter and if you desire, to add additional years to your donation extension. Please include your understanding of which parcels contain the fallowed land. If you have any questions please feel free to call me at (509) 249-6299.

Sincerely,

Patricia Kirk

Project

Discussed

ssThe Hoyts submitted a typed letter requesting that their current trust water right donation be extended to the 2011 season-of-use. Their donation already includes the 2011 season.

In talking with Mr. Hoyt, he thought they had to submit something each year. I explained that wasn't necessary; that their trust already includes 2011.

He asked when they should submit their next request for an extension, and I informed him that we'd like on or around September 1, 2011, one month prior to the expiration of their current donation.
